

Take the market with you with anywhere, anytime access from the global leader in mobile market access. Use these instructions to access your AspectDSC real-time news and pricing feeds, plus Advanced Charting tools.

You can also access the below instructions on your BlackBerry device at:

<http://myaspect.net/blackberry/>

The web page is formatted to fit your BlackBerry screen.

There are two ways to download and install the AspectDSC for BlackBerry application.

1. Directly from your BlackBerry Browser
2. From your PC using BlackBerry Desktop Manager

### 1. Installing from your BlackBerry Browser

Make sure you have an internet based connection such as GPRS.  
Run the BlackBerry web browser.

Choose to go to the following URL: <http://myaspect.net/blackberry/AspectDSC.jad>  
Select "Download" from the options presented.

The application will be downloaded and installed.

### 2. Installing from your PC using BlackBerry Desktop Manager

Download the following files:

- ALX and COD files in a ZIP archive: [AspectDSC.zip](#)  
OR
- Uncompressed ALX file: [AspectDSC.alx](#)
- Uncompressed COD files: [AspectDSC.cod](#) and [AspectDSC-1.cod](#)

Connect your BlackBerry to your PC, then run the Desktop Manager (this must be version 4 or later\*).  
Choose to install a new application, selecting the downloaded **AspectDSC.alx** file.  
The application will then be installed onto your device.

### After The Application Is Installed:

You will now see this **AspectDSC** logo on your screen display of applications.

Click on the icon, this will take you to your log-in screen (make sure you are not logged into AspectDSC on any other system, for instance your lap-top or workstation). Login to AspectDSC using your usual AspectDSC username and password. Use the menu to navigate between the futures panels.

Enjoy and/or send us your feedback.

\*The BlackBerry Desktop Centre (for downloading BlackBerry Desktop Manager Software) can be found at:
