

Aspect Reports Almost 50% Growth Last Year For Cloud CTRM Software

In a year when many older, traditional software solutions in the commodity trading and risk management space struggled to re-engineer software and upgrade clients, Aspect Enterprise Solutions inked deal after deal for 49.7% year-over-year growth in software bookings.

In Q4 alone, Aspect booked more than US\$4.2M in revenue for its best quarter of the year, signing 6 new clients. Many existing clients have also expanded their footprint with Aspect for more integrated trade and risk eco-systems.

Aspect Hosts Networking Event in Dubai

Aspect hosted its first networking event in Dubai this year. The successful gathering connected the region's commodity trading professionals and offered them the opportunity to explore the latest in commodity trade and risk management technology.

Aspect's Eat, Drink, Think events present a unique opportunity to meet with fellow trading professionals for a fun night of cocktails, hors d'oeuvres, and discussions about the market. Want us to host an event in your city? Let us know by emailing moreinfo@aspectenterprise.com.

"The Aspect cloud presents tremendous opportunity. Five years ago deployment projects took 18 months, and now it's 18 weeks or less. We're glad to be a part it, and so are our clients."

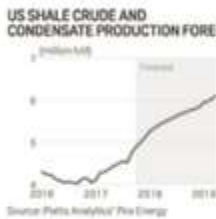

DOUG GYANI

Managing Partner, Principia Consulting
