

Sleek Redesign

AspectDSC empowers traders with real-time and historical commodity market data and trade & risk management tools. Thousands of traders across the globe rely on the platform to keep up with fast moving markets including oil & gas, metals, agriculture, and bunker fuel.

This year, AspectDSC is getting an update. What does this mean for you? You'll have access to a sleek, modern commodity market data portal that is easy to use and quick to get you the data you need.

Say hello to

**Dynamic
Functionality**

GOODBYE TO JAVA-RELATED BROWSER ISSUES

Our solution no longer requires third party media players such as Adobe Flash Player. HTML is user-friendly and allows for a more dynamic experience.

New Charting & Enhanced Trading Tools

With HTML, you get improved charting, price tables, and real-time pages. The new interface is easy to navigate. In just a few clicks, users access prices and news from reliable industry sources including CME, CBOT, NYMEX, COMEX, ICE, LME, Platts, Dow Jones and more.

- 75 new chart indicators and 8 new chart types
- New chart drawing, annotation and trendline tools with undo functionality
- New technical tools including Gartley Pattern and Andrew's Pitchfork
- Customizable color schemes
- Customizable time zones
- Updated drag, scroll and resizing capabilities
- Ability to populate an entire futures strip with a template

AspectDSC

GOES WHERE YOU GO!

Aspect understands how important real-time market movements are – that's why you can take AspectDSC with you on mobile. Learn more at www.aspectenterprise.com.
