# PLATTS GLOBAL ALERT (PGA)

**Platts Global Alert (PGA)** gives traders, risk managers, analysts and energy executives a comprehensive set of information on the global and regional oil markets. From up-to-the-minute information on real-time deals, breaking news, and market analysis to the latest global price assessments, PGA provides timely and relevant insight so you stay on top of the markets and make critical business decisions with speed and clarity.

The PGA quick guide is designed to help you discover and navigate through the vast content available to you easily and more efficiently. It includes:

- page numbers to assessments and commentary by region for key content
- contact details of Platts' global editorial oil team

This document is updated on a regular basis so go to <http://platts.com/IM.Platts.Content/methodologyreferences/symbolpagedirectories/pgaquickguide.pdf> to make sure you are using the most recent version.

## NEW ... EXPANDING PLATTS.FLASH FEATURE

From April 6, 2015 Platts expanded the number of assessments that are flashed on Platts Global Alert to include all key oil benchmarks as soon as they are published, in real-time. These flashes appear on PGA 108, and are published with category "N", which means you can filter these benchmark flashes by page number, or as part of the "News" category, on preference.

## All Platts News and Analysis in one location - page PGA100.

The areas Platts market reporters focus on each day are as varied as the global oil industry: from the hydrocarbon discoveries and dusters in the upstream, to planned and unplanned outages at refineries, pipelines and terminals; from the strategies and actions of global and regional companies to the intricacies of policy and regulation in both oil producing and consuming nations.

PGA 100 gives you all the latest Platts news and analysis in one place\*. You'll get:

- a real-time snapshot of what and who is moving global markets on any given day
- analytical coverage on what lies behind market moving events

*\*Platts updates page PGA101 as new content becomes available. At the time of this printing, this is the content outlined in the content master page index.*
